RE: Petition of the Office of Regulatory Staff to Establish Dockets to Consider
Implementing the Requirements of Section 1251 (Net Metering and Additional
Standards) of the Energy Policy Act of 2005;
Docket No. 2005-385-E

Dear Mr. Terreni:

By letter dated April 30, 2007, Ms. Pamela Greenlaw filed a motion with the South Carolina Public Service Commission ("Commission") in the above-referenced docket requesting that the Commission "establish two separate dockets for consideration of two decisions on separate issues." While Ms. Greenlaw did not serve a copy of her motion upon South Carolina Electric & Gas Company ("SCE&G" or "Company"), it is the Company's understanding that Ms. Greenlaw seeks to limit the scope of the May 15, 2007 hearing to one issue, namely, whether the Commission should implement net metering in South Carolina. Ms. Greenlaw also seeks to establish a second docket in order to determine the "selection of a model of implementation for net metering."

On May 4, 2007, Progress Energy Carolinas, Inc. ("PEC") filed with the Commission a response in opposition to Ms. Greenlaw's motion arguing, among other things, that the subject matter of the above-referenced docket includes consideration of the proper net metering model to be adopted by the Commission. The purpose of this letter is to notify the Commission that SCE&G supports the response in opposition filed by PEC and agrees with PEC that sufficient opportunity has been afforded to the public to present their views on net metering, including which net metering model to adopt and implement. Therefore, the Company joins the request of PEC that the Commission deny the relief requested in Ms. Greenlaw's motion.

By copy of this letter, we are also notifying all parties of record of the Company's support of PEC's response in opposition to Ms. Greenlaw's motion.

(Continued . . .)

The Honorable Charles Terreni
